
Diversity of natural beauty

The lifeline of the Main connects the Franconian wine country with the Steigerwald and Haßberge nature parks. Here, contrasting landscapes are in harmony with one another, side by side. Rich green meadows and river valleys huddle against sun-kissed vineyards. Spectacular panoramic views open up from the soft peaks. Charming wine-growing communities and medieval villages lie between lovely forest domes. The numerous coves and lakes in the Schweinfurt region offer countless possibilities for water and bathing fun.
